## Projects

### RetailEdge – Self-Checkout Retail System

Nov 2024 – Apr 2025

retailedge.vercel.app

- Engineered a Spring Boot backend and deployed cloud-native APIs for a smart cart-based supermarket checkout system.
- Integrated RFID + weight sensors on IoT carts to detect theft and generate real-time bills; deployed using AWS EC2.
- Led DevOps setup with CI/CD pipeline; improved checkout efficiency by **70%**, enabling secure self-service billing.

### Pejonx – Local Seller E-Commerce Platform

Jul 2022 – Aug 2023

- Founded and scaled a hybrid E-Commerce and marketing startup connecting 10+ small vendors with digital buyers.
- Managed product listings on my own E-Commerce platform and Amazon Seller Central, implemented delivery pipeline, and optimized ads via Google Ads.
